

OUTREACH PROGRAM

1. Name of the Institute/School visited : Good Shepherd Higher Secondary School, Jongksa.
2. Duration and date of visit : 1 day, 20th March 2018.
3. Any specific event : NA
4. Number of teachers accompanied : 05
5. Number of students participated : 26 (6th Semester)

6. Outcome of the visit:

The students demonstrated/performed a number of experiments for the class X students of the school. A powerpoint presentation was also prepared by our Physics Honours students on the topic of the fun of learning science. There is a tremendous excitement and appreciation from the school students as their understanding of Physics concepts which they learnt in the classroom are reinforced by what they saw and learnt from the demonstrations and exhibits presented by our Physics Honours students during the program. At the same time our Physics Honours students felt more empowered and confident as they could display their teaching skills. The program also received good feedback from the participants.
