- 2. Date:** March 11, 2023
- 3. Venue:** Department of Botany
- 4. Online Link:** NA
- 5. Duration:** 1 hour
- 6. Organizing Department/Club:** Botany
- 7. Name of the Collaborating Department/Agency:** NA
- 8. Brief Report**

Graduation is typically an exciting time for students since they get to select a career path. There are many things a student can do with their time following graduation, though getting an appropriate choice in a related organization is occasionally the preferred option. Making better judgements and increasing their chances of finding personal and professional fulfilment can be accomplished by being aware of what to do after graduation and the different options that are accessible. Of the large number of options available, one of the preferred options is to pursue post graduation. In order to get into various central universities for pursuing post graduation, the National Testing Agency (NTA) has been assigned the task of conducting the Central University Entrance Test (CUET) for admission to various Post Graduate (PG) programmes. In light of this, the Department of Botany, St. Edmund's College has invited Mr. Hiluwang Pamei and Ms. Henisha Kharhuma, who are currently enrolled in a PG programme at the Department of Botany at North-Eastern Hill University in Shillong, to present their strategies for passing the CUET exams. The lecture was attended by the current 6th semester students of our department.
