## OUTREACH PROGRAMME TO LUMPARING VIDYAPITH SECONDARY SCHOOL 31<sup>ST</sup> AUGUST 2018

## REPORT

The Department of Mathematics, St. Edmund's College organized an outreach program in Lumparing Vidyapith Secondary School for students of class 6, 7, 8, 9, 10 on 31<sup>st</sup> August, 2018. The outreach program is aimed at fostering interest and enthusiasm for mathematics among primary school students in remote areas of the state. The program sought to engage young minds with the wonders of mathematics through popular talk, interactive and hands-on sessions.

The event commenced with an engaging and informative talk delivered by Ms. Sabari Sarkar, a senior teacher of the department. The talk focused on showcasing the relevance, beauty, and applications of mathematics in everyday life. Through relatable examples and anecdotes, the speaker captivated the attention of the young audience, making complex mathematical concepts accessible and intriguing.

Following the talk, an interactive session was conducted to encourage active participation and dialogue. Students were encouraged to ask questions, share their thoughts, and engage in hands-on activities related to mathematics. This session facilitated a dynamic exchange of ideas and fostered a spirit of curiosity and exploration among the students.

The Outreach Program not only served as an avenue for imparting mathematical knowledge but also instilled confidence and curiosity in the young minds. Through such initiatives, we aim to nurture a generation of critical thinkers and problem solvers who are equipped with the essential skills to excel in both academic and real-world scenarios.

The Outreach Program proved to be a resounding success in achieving its objectives of popularizing mathematics and igniting interest among young learners and fostering a culture of mathematical literacy from an early age. Overall, the Mathematics Department is committed to continuing its efforts in promoting mathematics education and inspiring the next generation of mathematicians and problem solvers.
