

## About the College

St. Edmund's College was established on 24<sup>th</sup> May, 1923 by the Christian Brothers of India with its headquarters in New Delhi. Since its inception, St. Edmund's College has been a centre of excellence in higher education catering to the needs of the academia from various parts of the country and abroad. It has been reaccredited by NAAC and also is among the 36 colleges in India to receive STAR STATUS Award

## About the Department

The Department of Biotechnology at St. Edmund's College, Shillong was established on 5<sup>th</sup> June, 2006. Since its inception the department is engaged in nurturing UG students through its various programmes and has successfully motivated students to pursue research careers in Bioscience. Beside these the department has conducted 12 hands on National workshops, guided 25 students from various universities around the country through HRD programmes. The department has published 22 research papers in reputed national & international journals, made 24 oral & poster presentations in National conferences and also 1 poster in International Journals. The department is well supported by Bioinformatics & Advanced Level Biotech Hub, Star Status Scheme funded by Department of Biotechnology, Govt. of India

## Biotech Hub Facility

The Hub facility at St. Edmund's College, Shillong was initially sanctioned as the Institutional Biotech (IBT) facility in the year 2011 with consistent funding from the Department of Biotechnology, Govt. of India, New Delhi. In the year 2017, the Hub has been awarded

the status of "Advanced Level Biotech Hub Facility" owing to its good research environment and quality training imparted to students, scholars and faculties from colleges, schools and universities within and outside the state. Beside these the Hub organizes various Awareness, Entrepreneurship and Outreach Programs and has been able to reach out to students in rural areas to popularize and make them pursue Biotechnology as a career.

## About the workshop:

This workshop aims to contribute to the improvement of science teaching in schools. The workshop will deal with Communication skills, innovative teaching strategies in science, mentoring and skill development in order to motivate students and create an interest in the study of science
