The Department of Zoology, St Edmunds College, organized a popular talk on *'Apiculture: Bee-keeping and Honey Processing'* which was delivered by Miss Harador Khariong, an alumna of the Department who is also an entrepreneur. The program was conducted on the 16th of September, 2022 at the AV Room, St. Edmund's College, Shillong. The program was organized to commemorate the 60 years celebration of the Department. Prof. R. B. Gurung and Prof. D. A. War, both former Heads of the Department, were the special guests along with Dr. (Capt.) K. P. Malhan, Vice Principal (Academics) of the College. The program saw the active participation of the Zoology honours students from all the three Odd Semesters.

Miss Harador Khariong graduated from the Department of Zoology in the year 2019. During her stay in the department as a student, she participated in a field visit to the RRTC, Umran where the students got a hands-on one day training on apiculture as well as poultry farming, piggery, and Pisciculture. It was after this visit that she started gaining interest in apiculture and following her graduation, she then went on to pursue further training at RRTC, Umran. Now, she has established her own apiary at Ri-Bhoi District and is producing good quality and pure honey. Following her success story, the Department felt the need to narrate her story to the current students and invited her to deliver a popular talk on Apiculture. Therefore the main objective of the program was to encourage students to take up Apiculture as a livelihood program and in the process, establish themselves as successful entrepreneurs.

During the program we had opening remarks by the Vice Principal in charge of Academics, Dr. (Capt.) K. P. Malhan; a welcome address by the Head of the Department, Dr. Ronald K. L. Tron; and concluding remarks by Prof. R. B. Gurung. The vote of thanks was delivered by our former faculty Dr. Errini Dhar.
