**Mr. Trace Denholm**

**Report**

12<sup>th</sup> September 2022

## **Introduction**

The Mathematics Department of St. Edmund's College, Shillong organized an invited lecture program featuring two distinguished speakers from the United States, Mrs. Kerri M Tiewsoh Denholm and Mr. Trace Denholm. The event, attended by the department's major students, was aimed at broadening the students' perspectives on both their academic and professional journeys. The program received an overwhelmingly positive response from the attendees.

**Mrs. Kerri M Tiewsoh Denholm**, a former faculty member of our department, delivered an inspiring talk emphasizing the importance of hard work, innovative thinking outside the box, and the integration of interdisciplinary applications into the core subject of mathematics. Mrs. Kerri stressed that consistent effort and dedication are crucial to success in any field. She encouraged students to set ambitious goals and to not limit their aspirations. She illustrated how mathematics is not confined to theoretical studies but has significant applications in various other domains such as engineering, economics, and the social sciences. She shared insights on how to cultivate creativity and think outside the box, using examples from her own career and research.

**Mr. Trace Denholm** delivered a lecture on how to leverage technology and the internet for learning and professional growth. He shared numerous real-life experiences where technology played a pivotal role in solving problems and enhancing productivity. Mr. Trace highlighted the importance of staying updated with the latest technological tools and trends. He provided practical advice on using online platforms like Google and YouTube to learn new topics and skills. Through anecdotes from his own workplace, Mr. Trace demonstrated how technology can be a powerful ally in tackling everyday challenges. He encouraged students to be proactive in their learning journey, utilizing online resources to complement their formal education.

## **Audience Engagement and Response**

The lectures were highly engaging and interactive, with students participating actively in the Q&A sessions following each talk. The feedback from the students was overwhelmingly positive, with many expressing appreciation for the practical advice and motivational insights provided by the speakers. Students felt inspired by Mrs. Kerri's journey and her emphasis on thinking big and embracing interdisciplinary applications. Mr. Trace's practical tips on using technology and online resources were highly valued, with students eager to implement these strategies in their own learning and professional development.

The interactive nature of the sessions allowed students to engage directly with the speakers, asking questions and seeking advice on various topics.

## **Conclusion**

The invited lecture program was a resounding success, fulfilling its goal of inspiring and equipping students with valuable insights and practical tools. The Mathematics Department is grateful to Mrs. Kerri M Tiewsoh Denholm and Mr. Trace Denholm for their time and invaluable contributions. We look forward to organizing similar events in the future to continue enriching the educational experiences of our students.

The Mathematics Department extends its sincere thanks to all participants and looks forward to more such enriching events.
