FOOD FEST REPORT

It was with great pride and joy that the tradition of holding the annual department food fest was continued this year on 16th March at the college field. The event was inaugurated and declared officially opened by our respected principal, Dr. Sylvanus Lamare at 11:00 AM in the morning. The bright and sunny weather that day was a welcome reprieve from the biting cold just the previous week.

The event showcased the students' culinary and organizing skill with dishes of various types and various cultures being offered. The game stalls were no less interesting with the participants coming up with creative ideas to enthrall the audience and give them a change of pace from their regular college classes. The event coaxed students from different departments of the college to satisfy their cravings. Conveniently taking place close to the lunch hour, there were plenty of hungry stomachs to satisfy and they were not left wanting. Even apart from the participants, many students showed great enthusiasm as volunteers in the arrangements and for security purposes.

The day ended at 3:00 PM in the afternoon with the drawing of the lottery tickets. A lot of breaths were held as ears were closely listening to the lucky numbers. A total of six lucky numbers were drawn. And hence with the announcements of the winners, the event came to its successful closing.
