

Value Added Course - Everyday Chemistry

Organized by Department of Chemistry & Biotechnology, St. Edmund's College, Shillong

Introduction

Chemistry plays a big part in our everyday life. It is very much observed in Foods, the Air, Cleaning items like Soaps, Fuels, Lotions & Perfumes, Medicines and Drugs, Human body etc. Even our Emotions are controlled by certain chemicals! Literally, every object that we see or touch can be defined chemically. Its knowledge is useful to interpret and reason out the interesting facets of our life..

Objectives

The following Value Added Course designed by the Students have 5 modules- primarily aimed to address some interesting aspects in our daily routine i.e. Food that we eat; Cleaning items that we use; Fruits that we take; Tea that we drink.

It is believed that such course will help the participants to gather knowledge and appreciate the role of Chemistry in a non scientific manner.
