ECONOMICS DEPARTMENT

REPORT ON ONE DAY DEPARTMENT EDUCATIONAL TOUR

Date: 23/05/2023

Location: Evergreen Park, Mawpdang Village, Shillong, Meghalaya 793018

Purpose: Learning about environment and tourism and their relation with the economy, on top of all to have fun and enjoy.

On the 23rd May 2023, the 6th semester students of Economics (Batch 2020-2023) along with the teachers from the Department went for an outing to Evergreen Park with an aim to explore nature, to serve the purpose mentioned above and to have a much-needed break before our final exam. We all gathered in the college at 8:00am and travelled for about 40 minutes to reach the destination. Even though the journey was short but the students loved it and will cherish the moments forever.

The Evergreen Park is located 16km from our College in Mawpdang. The park officially opened in December 2022. Being relatively new, we observed plenty of construction activities. With plenty of open spaces, one can make a quick getaway from the city and be one with nature. An exclusive area was being prepared for children. A short nature trail within the park helped us explore some beautiful sights and sounds of water and birds. The park had a resting place to stay away from extreme sun and rain and made of natural materials like bamboo and straw. The availability of water and washrooms in different locations was an added bonus. As we went on a weekday, we had the entire park to ourselves.

We have seen that Shillong, with the scarcity of land, has inadequate parks for not just children but adults as well. With provisions for boating and an upcoming swimming pool, we are certain that in the near future, this newly inaugurated park will become a popular destination for people of all ages. It has the potential to generate employment opportunities.

The park was beautiful, the scenery was wonderful and the entire place was aesthetic and peaceful and what is more memorable is the chance we got to enjoy and bond with our classmates and teachers before we all graduate.

During the tour, our teachers prepared refreshments for us after which we all went around to take pictures and to see the park around. Later in the evening, we played fun games and sang with all the teachers and students together, won prizes and, also had tea before we headed home.

We left the park at around 5pm in the evening. It can be concluded that our outing was successful and our objective was achieved. We learnt something new and beneficial for us and came home with our hearts filled with happiness, smiles all over our faces, pictures and the memories to remind us that we had one of the best department outings.
