### PROGRAM OVERVIEW:

The Education Department of St. Edmund's College, Shillong, under the leadership of the Principal I/C, Dr. Br. Simon Coelho, and in collaboration with the Department of Social Work-UG, undertook an outreach program in Mawsawa Village, Myllem-East Khasi Hills District. This program was initiated after a pilot visit by the Education Department teachers to assess the needs and requirements of the children residing in the area.

The primary purpose of this program was to impart knowledge and provide educational support to the underprivileged children in the locality, aged between 2-10 years old. The department students prepared lesson plans focused on teaching Phonics and basic math calculations to the children.

### PROGRAM IMPLEMENTATION:

The first visit to the village was attended by all 55 students of the Education Department. Subsequently, the students were divided into groups, with one teacher overseeing each group. The department visited the village around 5 times from **14/10/2023 to 16/03/2024**, implementing new teaching methods and topics during each visit.

The Education department students emphasized the use of play-based and hands-on activities, as they believe that students learn best when they are actively engaged. Activities such as games, songs, hands-on exercises, and the use of chalk and blackboard were implemented to ensure the children's active participation and engagement.

### OUTCOMES:

The outreach program was successful in providing educational support and imparting knowledge to the underprivileged children residing in Mawsawa Village. The children actively participated in the various activities and demonstrated their eagerness to learn. The department students were able to effectively utilize their teaching skills and implement innovative techniques to cater to the needs of the children.

The collaboration between the Education Department and the Department of Social Work-UG fostered an interdisciplinary approach, allowing for a more comprehensive understanding and addressing of the educational and social needs of the target community.

Overall, the outreach program was a valuable learning experience for the department students, who gained practical insights into community engagement and the implementation of effective teaching strategies for underserved populations.
