

# International Women's Day

**Organized by**  
**Club Botanica**  
**Department of Botany**  
**March 8, 2022**

Every year on March 8th, International Women's Day is observed to commemorate the progress achieved toward gender equality and women's empowerment, as well as to critically reflect on those achievements and seek for more momentum toward gender equality.

The Botany department welcomed some female non-teaching personnel on this day. They also arranged a small birthday celebration for Miss Ilinti Mary Syiem, one of the student of our department. The members of the Club Botanica also organised a modest game called "musical chair," which the 6th semester students played in our college playground to make the day more delightful. Later, they had an online gathering using Google Meet, to which they invited all of the botany department's students, and they ended the day with uplifting poetry, talks, and messages.

The event was a success largely through the efforts of all of the Botany Department's students and teachers. They not only actively participated in the programme, but also strived to contribute new ideas. The department teachers did an excellent job of letting students to be the greatest versions of themselves.
