7. **Brief Report**

The badminton tournament was held for 9 days consecutively after the classes i.e. after 1:30 pm. We had over 123 participants, including both males and females. The tournament has been divided into two categories- singles and doubles. The animators and the teacher in-charge have decided to allow students only from the same semester and same department for the doubles category. We have also decided to give three tiers of prizes for the winners i.e. gold, silver and bronze for both the categories. The matches have been coordinated for five rounds. The first three were the elimination rounds and they were conducted with just one set with 11 points, the semi-finals were also conducted with only one set with 15 points whereas the last and final round have been conducted by best of two with 21 points for each set. The tournament was held successfully as both the animators and the teacher in-charge has worked collectively as a team in order to ensure that everything is running smoothly.
