<b>7</b>	<b>Brief Report</b>	

Edblazon is St Edmund's annual college week event that is largely organised by the students. It comprises of numerous competitive activities in sports, literary events and art forms and provides students with the avenues to hone their various skills and develop a competitive edge. In any given year, Edblazon is the highlight of college life in St Edmund's; but with the Centenary celebrations in mind, this year was particularly special.

In running and managing the college week, students learn to work effectively within a vast organisational structure. The large number of activities also require a considerable degree of mobilisation and cooperation across departments and semesters.

The names of the general animators were announced on 4 February 2023, which prompted the preparations for the various activities.

Altogether, 31 events were organized under EdBlazon 2023: -
