Report of the Event

The event started around 10 o'clock and ended till 4:30 PM, and lasted for only a day. Traditional Archery is a game using bows and arrows (provided by the college) made of bamboo and the target is made of a Banana Tree. There were approx. 43 participants in this event, and there are 6 winners (men-3, and women-3). It was a fun activity where some participants who were not familiar with the game also participated and some also won the game. Without the co-operation and working of the Teachers In-charge, Volunteers, Animators and Participants the event wouldn't be successful, we're grateful for all the cooperation and support that made the event successful.
