

REPORT ON
Workshop on “Engineering and Technological Innovations”

1. **Title:** Workshop on “Engineering and Technological Innovations for Student Counseling and Skill Development”
2. **Objective:** The workshop was organized to introduce Physical Science students to the importance of science and technology in modern society, with a special focus on the evolution of engineering and innovation. It aimed to bridge theoretical knowledge with practical applications, fostering innovation, problem-solving skills, and entrepreneurial thinking among students.
3. **Date:** 18th March 2026
4. **Duration:** 2:00 – 3:00 PM
5. **Collaborations:** The workshop was jointly organized by Assam Downtown University in collaboration with the Science Club and IQAC, St. Edmund's College.
6. **No. of Participants (Students):**
Students from Physical Science departments including Physics, Chemistry, Mathematics, Electronics, Computer Science, and BCA participated in the session.
7. **No of faculty:**
Faculty members from the concerned departments attended and facilitated the session.
8. **No of student organizers:**
Members of the Science Club actively coordinated and supported the organization of the workshop.
9. **Outcome:**
 - Academic Insight: Students gained a deeper understanding of the relationship between science, technology, and engineering.
 - Innovation Awareness: The session highlighted the importance of innovation, prototyping, and translating ideas into practical engineering solutions.
 - Skill Development: Students were encouraged to think critically and apply scientific knowledge to real-world problems.
 - Entrepreneurial Orientation: The workshop emphasized how everyday problem-solving can lead to startup opportunities within their respective fields.
 - Expert Interaction: The interactive session led by Dr. Manash J Borah provided valuable exposure to current trends in engineering, innovation, and product development.
10. **Feedback:** Students responded positively to the interactive nature of the session and appreciated the practical insights shared by the resource person. The workshop was found to be informative, engaging, and motivating, especially in encouraging innovation-driven thinking and awareness of future career opportunities in engineering and technology.

**Workshop on Engineering and Technological
Innovations
for Student Counselling and Skill Development
Jointly Organized by
Assam Downtown University
with
Science Club & IQAC, St. Edmund's College**

**18th March 2026
2:00 PM (Room – 8)**

Undergraduate students from Physical Science Departments are invited to register and participate in the workshop.

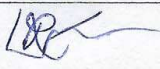

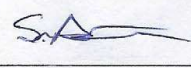

This workshop will introduce students to cutting-edge technological developments and emerging innovations in engineering and applied sciences, highlighting their importance in modern industries and future technological advancement.

6th semester students from the following departments are encouraged to participate:
Physics, Mathematics, Electronics, Chemistry, BCA and Computer Science
