**WORLD NATURE
CONSERVATION DAY**

- 1. Title of the activity:** World Nature Conservation Day
- 2. Date:** July 28, 2023
- 3. Venue:** Campus
- 4. Online Link:** NA
- 5. Duration:** 1 hour
- 6. Organizing Department/Club:** Club Botanica
- 7. Name of the Collaborating Department/Agency:** Department of Botany
- 8. Brief Report:**

World Nature Conservation Day is observed on July 28th every year. The theme for World Nature Conservation Day 2023 is “Forests and Livelihoods: Sustaining People and Planet”. It is a day dedicated to raising awareness about the importance of preserving and conserving the natural environment and its resources. The day aims to remind people of the critical role that nature plays in our lives and the need to protect it for future generations. The concept of nature conservation revolves around sustainable management and the responsible use of natural resources to ensure their long-term survival. This includes efforts to protect biodiversity, conserve ecosystems, prevent habitat destruction, combat climate change, and promote environmental sustainability.

As a part of World Nature Conservation Day, the Club Botanica along with Department of Botany organized a program to promote environmental awareness and encourage actions to conserve nature. It is essential to recognize that every individual can make a difference by adopting eco-friendly habits and being mindful of their impact on the environment. World Nature Conservation Day serves as a reminder that the collective efforts of people worldwide are crucial in safeguarding our planet's natural beauty and resources for generations to come.

9. Brochure:

10. Feedback: The pupils gained knowledge about the value of nature and their part in its preservation. The students have pledged to be an environmental defender.

11. Any Social media activities: NA
