REPORT ON Extension

Name of the Event	**AimFest 2024**
Objective	The objective of hosting Aimfest was to promote the growth of esports by recognizing and celebrating precision aiming as a core gaming skill. It aims to bring together a community of passionate gamers, fostering healthy competition and collaboration while providing a platform for participants to showcase their talent. Additionally, the competition seeks to identify and reward top performers, offering them opportunities to advance in the world of professional gaming and esports. Aimfest aspires to inspire skill development, enhance engagement in the gaming community, and create a memorable experience for all participants and spectators.

Brief Report:

Laitumkhrah, Shillong – 793003, Meghalaya, India

The event provided a platform for all the aspiring gamers/eSports players to show off and prove their individual skillsets by eliminating the need for a team and by proposing a score based and 1v1 match system and most importantly offline/LAN hosting for Day 1 and Day 2 respectively.

The following activities were conducted:

1. Day 1: Aimlabs [Top Scorers were qualified for Day 2].
2. Day 2: Finals 1v1, game used was CS:Source.

All the Gaming Equipment was provided by the Animators and the players also had the liberty to bring their own gear (mouse/Keyboard/Earphones).
The competition's winners were crowned purely based on their skills.
All the participants were very passionate and the event was yet another success for the H.O.G Club!
