PCB DESIGNING

TELECOMMUNICATION  
ENGINEER

SEMICONDUCTOR  
PROCESS ENGINEERING

What can I do  
after  
BSc  
Electronics?

MICRO FABRICATION  
ENGINEER.

IOT DESIGN  
ENGINEER

PhD / MSc

ELECTRONIC SIMULATION

BASIC ELECTRONICS

CIRCUIT DESIGN

CONDUCTING WORKSHOPS

ELECTRONICS  
TROUBLESHOOTING

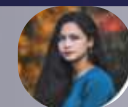

MICROCONTROLLER PROGRAMMING.

Lanusubo Walling  
(Ph D at NIT Nagaland)  
My experience in the  
department can be  
defined only by excellence.

I got to learn from the best teachers and professors, the syllabus follows is updated to the top universities so to have smooth transition in higher studies. The environment they created for us not only helped me in elevating me into a new stratosphere but they also helped me grow to be wiser for the future.

Dariskhem Pyngrope  
(Ph D at NIT Meghalaya)

My Experience with St Edmunds college has been one of the most rewarding journey in my life. I personally have benefitted a lot from the department of Electronics. Teachers were always ready to solve our doubts and would walk that extra mile to holistically equipped us with all the knowledge and necessary skill set to overcome challenges ahead of us. Truly, I am a proud Edmundian and I am forever thankful and in debt on the department of Electronic Science, St Edmunds.
