Be a good person but don't waste time proving it..”

Memories of College Life:

It is of immense pleasure and a touch of emotions and joy filled with beautiful memories in my college life in St Edmund's. The first month when i joined college i didn't know nothing about anything, I was just a student with a dream of one day graduating and make myself and my loved ones proud. So I went to college everyday and on the third week or so i had to meet up with the seniors of my department (Economics) who had selected me to team up with them for the inter college Chess competition which was held in NEHU in the year 2019 (August)..we sat everyday after classes near the canteen to practice and prepare for the competition, little do we know that we're about to bring glory to our college by defeating the other colleges in Shillong and eventually went on to win that tournament. It was a great achievement for all of us as a team and for our college and our Economics department as a whole since me and my seniors that time we were all from the same department, so that was one of the best memories i could recall in my college life and other memories would be waking up everyday in the morning at 5 am to get ready to come to class. it was the best days of my life learning my favourite subject from my favourite teachers in college. I would like to thank all my teachers for this wonderful journey and most importantly for guiding us and equipped us with knowledge which will help us for our future. Thank You Teachers and Classmates. I hope one day we'll get to reunite again with you all sharing our achievements in life..God Bless.☐ ..
