8. MODE: OFFLINE
9. PLATFORM:
10. LINK
11. NO OF PARTICIPANTS:

TEACHERS: 5

STUDENTS:9

12. OUTCOME OF THE PROGRAMME:

The talk focuses on the effects of pollution, its causes and implication it has on the Earth's environment. Participants are from departments who is connected to the topic which made the resource person open up to them about the field as a whole and the steps where a topic like this can be taken in for research. Stress was also given to the students about research work and how can one improve his or her way of scientific temperament. Also the students learned about the various techniques, mathematical tools, computation etc that is needed to go about the research work in Earth Sdcience. This Talk brought about an awareness amongst the students about many more topics and also motivated them to opt for higher studies and research.
