

Report On Department Initiative For Advanced And Slow Learners

1. Initiatives Details

The Department of Biochemistry decided to motivate learning among the Achievers and Potential Students. Students with potential but scoring low percentage in both theory & practical examinations up to 3rd Semester were chosen to opt for Vocational Training Course on Protein Purification Techniques and the remaining students of high percentage in the examinations were motivated to take up Project Work. The Vocational Training Course was designed so that the techniques learned in both theory and practical classes further imbibe in the students. The students were allowed to perform the experiments at their own pace and ability.

2. How department identifies Slow and Advanced achievers with documentation

Students scoring high percentage up to 3rd Semester were chosen to opt for Project Work and the rest were motivated to take up the Vocational Training Course on Protein Purification Techniques.
