

REPORT ON Department Initiative for Advanced and Slow Learners

1. Initiatives Details:

The department has been practicing Group Mentoring with Major students for several years. The students are divided into groups with Team and an Assistant Team leader. Groups are required at least twice a week and discuss topics from the syllabus, check past papers for questions on the topics discussed, make individual mindmaps on topics and meet an assigned teacher of the department for further clarifications. Teachers test their understanding of topics based on the mindmaps presented.

2. How department identifies Slow and Advanced achievers with documentation:

Slow and advanced learners are identified on the basis of their marks (internals &externals). Slow learners are spread across all groups. Team & assistant team leaders are the students with better academic grades

3. Activities for slow and advanced achievers with documentation:

The activities are as mentioned under point 1

4. Mentoring:

Mentoring is purely academic and each group meets different faculty members of the department every week

5. Any other:

Senior students also mentor their juniors in the initial phases
