

Event: Trekking to the Parallel Root bridge at Burma village, Pynursla**Date: 21st August 2018**

The N.O.W Eco-Club, St. Edmund's College along with “**Living Root Foundation**” organized a field trip to **Burma, Pynursla Block**, East Khasi Hills District, Meghalaya, on 21st August 2018. The objective of the study was to witness the formation and significance of Living Root Bridge of Burma village. Students were able to study the construction and formation of the living root bridge and the indigenous practices of the local people and how it has helped in the conservation of the different biodiversity of the village.
